Title: STERILE BICARBONATE FREE DIALYSIS CONCENTRATE
SOLUTIONS

Inventor: Sheldon Tobe

Examiner: Leslie R. Deak

Group Art Unit: 3762

Due Date: July 28, 2004

**RESPONSE TO
EXAMINER'S REPORT DATED JUNE 28, 2004**

August 13, 2004

VIA FACSIMILE (703-872-9306)

The Commissioner of Patents
UNITED STATES PATENT OFFICE
220 20th Street S.
Crystal Plaza 2, Lobby, Room 1B03
Arlington, Virginia 22202

Dear Sir:

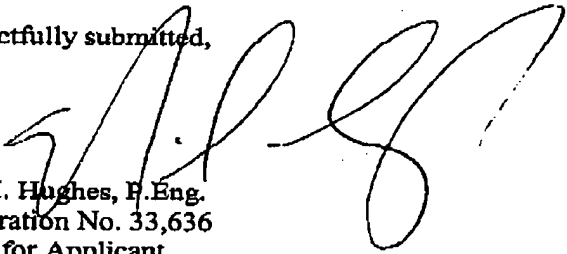

In response to the outstanding Official Action dated June 28, 2004, a copy of which is attached, due for response **July 28, 2004** Applicant provides herewith a request for an extension of 1 month to and including August 28, 2004 in order to provide a proper reply.

- 2 -

Pursuant to the Examiner's restriction requirement under 35 U.S.C. 121 Applicant hereby elects with traverse to prosecute invention "I" as identified in the Examiner's report, namely, claims 1 and 11, drawn to a sterile dialysis concentrate composition, classified in class 424, subclass 686. However, Applicant respectfully repeats his arguments with respect to any alleged election requirement on the grounds of the traversal submitted in his response of April 15, 2004 which are hereby incorporated in its entirety by reference. It makes little sense to group dependent claims apart from their corresponding independent claims.

If the Examiner has any questions, she is respectfully requested to contact Applicants' Agent, Neil H. Hughes at (905) 771-6414 at her convenience.

Respectfully submitted,

Neil H. Hughes, F.Eng.

Dear Examiner Deak:

CERTIFICATION OF FACSIMILE TRANSMISSION

I hereby certify that this paper:

- 1) Response to Examiner's Report dated June 28, 2004 and
- 2) Request for Extension of time

is being facsimile transmitted to the United States Patent Office Facsimile No. (703) 872-9306 on the date shown below.

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 April 2004.
 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
 5) ☐ Claim(s) _____ is/are allowed.
 6) ☐ Claim(s) _____ is/are rejected.
 7) ☐ Claim(s) _____ is/are objected to.
 8) ☒ Claim(s) 1-20 are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 a) ☐ All b) ☐ Some * c) ☐ None of:
 1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
 3) ☐ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)
 Paper No(s)/Mail Date _____
 4) ☐ Interview Summary (PTO-413)
 Paper No(s)/Mail Date _____
 5) ☐ Notice of Informal Patent Application (PTO-152)
 6) ☐ Other: _____

DETAILED ACTION***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 11, drawn to a sterile dialysis concentrate composition, classified in class 424, subclass 686.
 - II. Claims 2, 3, 12, and 13, drawn to a kit comprising the concentrate solution and instructions, classified in class 514, subclass 512.
 - III. Claims 4, 7, 10, 14, 17, 19, and 20, drawn to a method for preparing a dialysis concentrate solution, classified in class 424, subclass 489.
 - IV. Claims 5, 6, 8, 9, 15, 16, and 18, drawn to a method of performing continuous hemodialysis, classified in class 604, subclass 5.01.

The inventions are distinct, each from the other because of the following reasons:

2. The inventions in all four groups are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d).
3. Applicant's election with traverse of the restriction in the reply filed on 15 April 2004 is acknowledged. The traversal is on the ground(s) that each invention is not distinct since they all require use of the claimed composition. This is not found persuasive.
4. Applicant has argued that the invention requires the claimed composition in the claimed kit. However, the claimed composition may be used in a different kit, therefore making the inventions independent and distinct. Furthermore, the composition may be

Application/Control Number: 10/020,881
Art Unit: 3762

Page 3

used in another procedure, prepared in another manner, and can be used in a different procedure. While each of the dependent claims talks about the composition, the claimed composition may be used in a variety of applications, and claims drawn to its use and preparation are statement of intended use of the claimed composition. The claims are clearly divisible into four distinct categories of invention, regardless of their dependency: the composition of a sterile dialysis solution; a kit for use with the composition; a method for preparing a composition; and a method of performing hemodialysis.

5. The requirement is still deemed proper. However, since the rationale has changed, the requirement is not final at this time.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. The preambles to the claims indicate that the claim limitations are drawn to separate and distinct subject matter. In order to more particularly claim the intended subject matter, the claims that directed to the distinct groups: concentrate, kit, method of mixing, and method of patient treatment, should be rewritten in independent form with corresponding dependent claims.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Application/Control Number: 10/020,881
